### Spirit of 1776. Tar and Feathers.

The original handbills of the committee for Tarring and Feathering subjoined, are of singular interest, as they were the earliest emanations of the spirit that led to England's losing her American colonies, and the consequent rise of the United States:

*To the Delaware Pilots.*

THE regard we have for your characters, and our desire to promote your future Peace and Safety, are the Occasion of this Third Address to you.

In our second Letter we acquainted you that the Tea Ship was a Three Decker; We are now informed by good Authority, she is not a Three Decker, but an *old black Ship, without a head or any ornaments.*

The *Captain is a short, fat Fellow, and a little obstinate* withal.—So much the worse for him.—For so sure as he *rides rusty*, We shall have him Keel out, and see that his Buttom be well fired, scrubb'd and paid.—His Upper-Works too, will have an Over hauling—and as it is said he has a good deal of *Quick Work* about him, We will take particular Care that such Part of him undergoes a thorough Rummaging.

We have a still *worse Account of his Owner*;—for it is said the Ship POLLY was bought on Purpose, to make a Penny for us; and that *he* and Captain *Ayers* were well aware of the Risque they would run, in thus daring to insult and abuse us.

*Captain Ayers* was here at the Time of the Stamp Act, and ought to have known our People better, than to have expected we would be so mean as to suffer his *rotten* TEA to be funnel'd down our Throats with the *Parliament's Duty* mixed with it.

We know him well, and have calculated to a Gill and Feather, how much it will require to fit him for an *American Exhibition*. And we hope not one of your Body will behave so bad as to oblige us to clap him in the Cart along Side of the *Captain*.

We must repeat that the SHIP POLLY is an *old black Ship*, of about Two Hundred and fifty Tons Burthen, *without a head*, and *without Ornaments*—and that CAPTAIN AYERS is a *thick chunky Fellow*.—As such TAKE CARE TO AVOID THEM.—

Your Old Friends,
THE COMMITTEE FOR TARRING AND FEATHERING.

*To Captain Ayers of the ship Polly, on a voyage from London to Philadelphia.*

SIR,

WE are informed that you have imprudently, taken charge of a Quantity of Tea, which has been sent out by the *India* Company, *under the auspices of the Ministry*, as a Trial of *American* Virtue and Resolution.

Now, as your Cargo on your arrival here, will most assuredly bring you in hot water; and as you are perhaps a *stranger to these parts*, we have concluded to advise you of the present Situation of Affairs in *Philadelphia*—that taking time by the Forelock, you may stop on your dangerous Errand—secure your ship against the Rafts of combustible Matter which may be set on Fire and turned loose against her, and more than all this, that you may preserve your own Person from the pitch and feathers that are ready for you.

In the first place we must tell you that the *Pennsylvanians are to a man* passionately fond of Freedom: The birthright of *Americans*, and at all events are determined to enjoy it.

That they sincerely believe that no power on earth has a right to tax them without their consent.

That in their opinion, the tea in your Custody is designed by the ministry to enforce such a tax, which they will undoubtedly oppose; and in so doing, give you every possible obstruction.

We are nominated to a very disagreeable but necessary service—To our care are committed all offenders to the rights of America; and hapless is he whose evil Destiny has doomed him to suffer at our Hands.

You are sent out on a diabolical service and if you are so foolish and obstinate as to complete your voyage, by bringing your ship to anchor in this port, you may run such a gauntlet, as will induce you in your last Moments, most heartily to curse those who have made you the Dupe of their Avarice and Ambition.

What think you Captain, of a halter around your Neck—ten Gallons of liquid Tar decanted on your Pate—with the Feathers of a dozen wild Geese laid over that to enliven your appearance.

Only think seriously of this—and fly to the Place from whence you came—fly without hesitation—without the formality of a Protest—and above all, Captain *Ayres*, let us advise you to fly without the wild Geese Feathers.

Your friends *to serve*,
THE COMMITTEE *as before described*.
*Philadelphia, Nov. 27, 1773.*

B. FRANKLIN'S CELEBRATED LETTER TO STRAHAN.

As a sequel to the foregoing notices, we give Dr. Franklin's celebrated letter, written in the actual heat of the first outbreak:

Philadelphia, July 5th, 1775.

MR. STRAHAN.—You are a member of Parliament, and one of that majority which has doomed my country to destruction. You have begun to burn our towns, and murder our people. Look upon your hands! They are stained with the blood of your relations! You and I were long friends, you are now my enemy, and

I am yours, B. FRANKLIN.

DISTRESS IN NEW YORK.—The New York *World* of December 10th says: Of the 28,000 artisans employed in the jewelry business, 40 per cent. are out of employ; carpenters' wages have been reduced from $3 50 to $2 50 a day, and only one-half of the journeymen can find employment; of hatters, there are 400 who can get work but one day in six; of the 20,000 tailors in the city, one-quarter are unemployed, the quantity of work for them is 30 per cent. less than that assigned them at this time last year, and their wages have been reduced by 33⅓ per cent.; the iron workers say that business has not been in twenty years so dull as now it is; at least 1,000 shipwrights are out of employ, and from one end of the East river to the other but five vessels are building, of which two are steamboats, two are ferry-boats, and one is a sailing vessel; and, to close this sad list, it is estimated that 3,000 servant girls are seeking places but find none. Such facts as these do not need comment. Attribute them to whatever cause one may, the statement remains that thousands of men and women in the metropolis who depend for a living upon daily labor can find no employment; they are willing, nay, anxious to work, but there is no work for them to do. How they are to survive the winter they dread to forecast. Want stares them in the face. Relief is too far removed to be within sight. Yet they must live, and it is not impossible that many of them may be objects of charity ere the spring returns. Probably few of our citizens are aware of the state of affairs thus presented; but unless a change for the better takes place (of which there is no immediate prospect) New York will see as much distress as it did in the winter of 1857-8, when processions of men, women and children were no uncommon thing.

THE POSTAL SERVICE.—In his annual report, the Postmaster General says:

Until the whole country is well settled by a stable, producing, thrifty population, it cannot be assumed, with certainty, that the Post Office Department can become self sustaining. New channels of postal communication are opening everywhere, and necessary expenses grow faster than legitimate revenue increases. When the waste country becomes better settled, and the facilities for mail transportation increased and cheapened, as they will be in a very few years, the increase of revenues and comparative decrease of carrying expenses will entirely change the relation of the taxes and resources of the department, and, at the present rate of postage, it will not only be self sustaining, but furnish no inconsiderable revenue to the government. There is no appropriation of public money which brings back, directly and indirectly, so large a return to the government and the people as that made in aid of the postal service. Only one other department of the government gets back a revenue anywhere near its expenses in return for the outlays of public money.

Shakspeare is now spoken of in refined circles as a well-noted literary gentleman of the Elizabethan era.

Why will a singing master win in a race against time? Because time flies and the singing-master beats time.

### Twenty Years Ago.

In a copy of the *Oregon Free Press*, a folio sheet of two columns to the page, published at Oregon City, twenty years ago, by Geo. L. Curry, we find an educational advertisement, which we reproduce as a memento of the early efforts to establish facilities for education in Oregon. The paper before us is dated October 12, 1848. It was printed on a small font of French type; and as the font contained none of the letter "W," "VV" was used in its stead. We may add that Rev. Cushing Eells, who was Principal of the Oregon Institute at that time, is now Principal of the "Whitman Seminary," near the town of Walla Walla, and Superintendent of schools for Walla Walla county:

OREGON INSTITUTE.

The Fall Term of this Institution will commence on the 1st Wednesday in September. The school is under the superintendence of the Rev. CUSHING EELLS, A. M., and consists of two departments. The Primary department is taught by Mrs. EELLS, and includes Spelling, Reading, and the Elementary parts of Arithmetic and Geography. The price of tuition is 2 dollars per quarter of 11 weeks.

The other department is taught by the Principal himself, and includes Reading, Writing, Grammar, Geography, Arithmetic, Algebra, Geometry, and the several branches of Philosophy, with such Classical studies as may be desired. The price of tuition in this department for Reading, Writing, Grammar, Geography and Arithmetic, is 3 dollars—for the higher branches, 4 dollars. Arrangements are made to furnish the most approved books. For Spellers, "Websters Elementary" is used, and will be sold at cost. Other books will be furnished to each scholar as may be needed, for the use of which a small percentage will be charged on the tuition bills.

A boarding department will be kept in the Institute building by AARON E. PURDY, Esq., exclusively for the school. The highest price for board, is one dollar and fifty cents. Students are expected to furnish their own bedding. It is confidently believed that, under the present able Principal, the mental and moral interests of the students will be carefully provided for, so that parents and guardians of youth may commit them to his care with the utmost confidence.

By order of the Board.
WILLIAM ROBERTS, Chairman.
Salem, August 29, 1848.

### The Original Manuscript of Franklin's Autobiography.

[From Lippincott's Magazine.]

Among the trophies of an enlightened zeal for American interests brought home by Mr. Bigelow, our late Minister to France, was the original manuscript of Franklin's autobiography. The fate of the manuscript has for more than half a century been a mystery. Sir Samuel Romilly, during his first visit to France, in 1802, speaks of having seen it, but since then its fate had left no trace that we are aware of upon the literature of any country. Mr. Bigelow found it, we are told, in the hands of the family through whose courtesy it was exhibited to Romilly—the very family to whom it was presented by its author.

Interesting as must necessarily be the original draft of perhaps the most universally popular book ever written by an American, a collection of the manuscript has disclosed in it a new value which no one could have been prepared to anticipate. For some reason, which it will remain for the historical *quid nunes* to ascertain, the world, it now appears, has never yet seen the autobiography which Franklin wrote. The manuscript discloses the fact that great liberties were taken with the text by the editor of the original edition of 1817; that numerous changes, several hundred in number, were introduced, and, in fact, still more remarkable, that all the Doctor wrote during the last year of his life, embracing many foolscap pages, was entirely omitted. One of the most considerable omissions embraces a full description of his first visit to England as agent for the Colony of Pennsylvania, to sustain the right to tax the proprietaries, who foolishly and perversely contested the right. All that, including a most graphic account of his negotiations with Lord Grenville and Lord Mansfield, was apparently overlooked by William Temple Franklin, or whoever superintended the edition issued in his name.

We understand that Mr. Bigelow has consecrated a portion of the leisure purchased by his withdrawal from official life to prepare a correct and complete edition of the memoirs as they originally came from the pen and brain of their illustrious author.

It is a curious literary phenomenon that a posthumous publication like this, which has been printed in nearly every written language, and which, in bookseller's phrase, "always is stock," should have had currency for more than half a century without once being verified, though the manuscript was designed for publication, and has been at least that length of time in the hands of the family at whose special instigation it was written, and to whom it was presented by the Doctor himself.

THE LAW OF STORMS.—The Smithsonian Institute proposes, in the interests of science, to investigate the facts and phenomena connected with the late great hurricane in the West Indies. To that end the Institute has addressed a circular to all sea captains who were within a thousands miles of the hurricane at the time to deposite their log books with the Institute for examination, with the view to promote an investigation of the law of storms, and of a collection of facts in relation to this one in particular. The Institute will no doubt in a few months have a complete chart and description of the storm in Seward's last purchase.

THE OPEN FIRE.—"I am a firm believer," says Dr. Cuyler, "in the moral and spiritual influence of an *open fire*. To make home attractive, there must be somewhere in the house a common family rendezvous; and that ought to present a more radiant attraction than a black hole in the floor, through which hot air pours forth from a subterranean furnace. Men will fight for their altars and their firesides; but what orator ever invoked a burst of patriotism in behalf of steam-pipes and registers? I never cease to be thankful that I was brought up beside the hickory fire of a rural farmhouse."

A Washington dispatch to the New York *Tribune* says: "To-day a lady, in company with a distinguished Western Governor, called upon a friend who was at the capital to assist in getting a lad appointed a page in the House of Representatives, giving as a ground of claim to the appointment that the lad was a son of the lady at whose house President Lincoln died. The friend gravely replied that he thought he could get the appointments for three pages, if wanted, if the lady could only get President Johnson to come to the same house and die."

SHIELDS IN A NEW ROLE.—The fate of previous experiments does not seem at all to deter the ambitious. We are told that General James Shields, soldier, lawyer and diplomatist, is about to erect a first class theater on his property on Bush street, between Montgomery and Kearney, opposite the Temple of Music, in San Francisco. The edifice will have a frontage of 160 feet, by a depth of 110 feet. The building occupied by the Mercantile Library and Platt's Hall is to undergo transmogrification for a similar purpose.

Eternity has no gray hairs. The flowers fade, the heart withers, man grows old and dies; but time writes no wrinkles on eternity. Eternity! O, stupendous thought! The ever-present, unborn undecaying and undying—the endless chain composing the life of the universe. Earth has its beauties, but time shrouds them for the grave, its places, they are but the gilded sepulchre, its pleasures, they are bursting bubbles. Not so in the untried bourne. In the dwelling of the Almighty can come no footsteps of decay.

SLAVERY still continues in Kentucky. They call it apprenticeship, but it is not worth while to [illegible] about names. [illegible] persons, mostly children and youth, bound as apprentices under the Kentucky laws, are watched, worked, whipped, degraded and brutalized, precisely as in the old days when the other name of the system was legal. In many cases, the parents of the children reside in the adjacent counties of Indiana, not daring to venture across.

### The Penitentiary.

[From the Record.]

On a late visit to this institution, we [illegible] something of its operations and were favored with many items of interest, in the absence of the Superintendent, by Mr. Morze, Warden, who [illegible] much pains to satisfy the inquisitiveness of a journalist searching for items. Quite a [illegible] has been made in the aspect of the [illegible] grounds, which were covered, last summer, with tall brush. This has been cut down, and a [illegible] deal of it grubbed clean, ready for the plow. [illegible] ten acres of the same has been plowed, and will be cultivated in vegetables this year. [illegible] able more of the cleared ground is to be cultivated. Twenty-seven men are grubbing. A number are making posts and pickets, as a post and rail [illegible] is to be made along the road, and a picket [illegible] will enclose an avenue from the [illegible] to the prison.

A lane will be made from the enclosure at the prison to the brick yard, which will be [illegible] enclosed, so that the hands will not be [illegible] defended stockade at any time. Visiting the work shops, we found four carpenters at work in various ways. Three blacksmiths [illegible] iron for the prison use. Two harness [illegible] were busy making horse collars for [illegible] & Co. A shoemaker was at work [illegible] leather, making shoes for the convicts. [illegible] attends to the tonsorial art, and employs [illegible] time at other things. Two tailors make up [illegible] ments as required. Five cooks and three [illegible] and some others as house servants, are [illegible] within doors. Three wood choppers are [illegible]

There were ten on the sick list last [illegible] 28 the week before, as shown by the [illegible] ports. Dr. Capenter, who was in [illegible] gave us particulars as to the state of [illegible] There have been no deaths within a year. [illegible] Sept., 1866, two have died, one of [illegible] and a Chinaman who was poisoned, [illegible] the Chinese doctor in the Portland jail. [illegible] said when a countryman is to be [illegible] to take him out of the way before-hand by a [illegible] of poison. There are no cases in [illegible] ger. In Sept. 1866, the Superintendent [illegible] convicts turned over by his predecessor [illegible] have been 48 received since; 7 previously [illegible] have returned; 30 have been discharged or [illegible] died, leaving 72 now in the penitentiary—a [illegible] heavy increase. The conduct of the [illegible] speaks very forcibly of the good [illegible] officers. The safety of the convicts is, [illegible] circumstances, remarkably well assured.

While the expenses of the institution [illegible] it must be remembered that the convicts are [illegible] paring permanent works of great [illegible] State and so saving great outlay.

THIS BRINGS THE LINE TO THE [illegible] of the Rocky Mountains, and it is [illegible] track will be laid thirty miles farther, to [illegible] highest point on the road, by [illegible]. The grade from the foot of the mountains to the [illegible] but eighty feet to the mile, while that of many [illegible] roads is over one hundred. Work in the rock [illegible] on the western slope will continue through the [illegible] and there is now no reason to [illegible] that the [illegible] line to the Pacific will be open for [illegible] in 1870.

The means provided for the construction of this National Work are ample. The United [illegible] Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a second lien as [illegible] and receives payment to a large if not to the full [illegible] claim in services. These bonds are [illegible] mile section is finished, and after it has been [illegible] by the United States C[illegible] and pr[illegible] be in all respects a first-class road, [illegible] with depots, repair shops, stations, and all the rolling stock and other equipments.

The United States also makes a donation of 12,800 [illegible] of land to the mile, which will be a source of [illegible] nue to the Company. Much of this land in the [illegible] Valley is among the most fertile in the world, and large portions are covered with heavy pine [illegible] abound in coal of the best quality.

The Company is also authorized to issue its [illegible] Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. [illegible] and Hon. Oakes Ames are Trustees for the [illegible] deliver the bonds to the Company only as the work progresses, so that they always represent [illegible] productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five million [illegible] paid in upon the work already done.

**EARNINGS OF THE COMPANY.**

At present, the profits of the Company are [illegible] only from its local traffic, but this is already much more than sufficient to pay the interest on all the [illegible] Company can issue, if not another mile were [illegible] not doubted that when the road is completed the [illegible] traffic of the only line [illegible] the Atlantic and [illegible] States will be large beyond precedent, and, as [illegible] be no competition, it can always be done at [illegible] rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are [illegible] ment direction. It is believed that no [illegible] so carefully guarded, and certainly no other is [illegible] a larger or more valuable property. As the [illegible]

### A Voice from a Past Age

A [illegible] thing has occurred, and Gran'ther Wait has heard of it. Actually heard of it! The [illegible] com-pro-miser of the war period has advanced a step beyond com-pro-mise! He has [illegible] come into possession of a piece of information which has a bearing upon quite another [illegible] than his favorite one of com-pro-mise! [illegible] half a year ago, Senator Williams delivered [illegible] a number of speeches in various parts of the [illegible] among them, one in Portland. Gran'ther Wait says he "is informed" of this fact. He [illegible] also to have obtained possession of a [illegible] of the Portland speech, and to have [illegible] it of a state of prolonged somnolency, so [illegible] give it a partial reading. Or, if not fully [illegible] he may be in a trance or clairvoyant [illegible] at any rate he has delivered an opinion regarding one of the points in the Senator's speech. [illegible] is that the decision of the United States Court in the Rhode Island case, to which Mr Williams referred, does not sustain the [illegible] of Congress in deciding as to the legitimacy of the governments in the late rebel States [illegible] Williams quoted from the familiar decision of Chief Justice Taney to show that "it rests with Congress to decide what government is the established one in a State," and contended that this authority establishes the exclusive right of Congress, under the Constitution, to decide [illegible] in the United States [illegible] legitimate government [illegible]. The veteran compromiser says [illegible] the Court (in the Rhode Island case) did not justify that part of its decision quoted by Mr. Williams. The Court says, and [illegible], that the President acted, but it is not [illegible] by the Court, nor does it appear in the facts of the case that Congress [illegible] any law or resolution, or prepared, or attempted to [illegible] any act either sustaining or [illegible] either party." This is an extraordinary [illegible]. The Dorr party in Rhode Island were in [illegible] against the authority of the State, the [illegible] a proclamation by order of the [illegible] declaring martial law, and the President [illegible] applied for a military force to quell the [illegible]. The act of Congress of February, 1795, provided that "in case of an insurrection in any State against the established government thereof, it shall be lawful for the President of the United States, on application of the Legislature of such State, or of the executive (when the Legislature cannot be convened), to call forth such a number of militia of any other State or States, as may be applied for, as he may judge sufficient to suppress such insurrection. "Under this law the President prepared to [illegible], but the abandonment of the enterprise by Dorr and his associates [illegible] such [illegible]. Yet the venerable compromiser profoundly remarks that Congress did not [illegible] law affecting either party." Such a law was [illegible] in force, there was no need to [illegible] for the special occasion. Governments [illegible] for a rebellion to occur before they [illegible] for the suppression of rebellions, men [illegible] wait for a conflagration to happen before [illegible] to provide means for extinguishing it. [illegible] is the passion of Gran'ther Wait for compromise [illegible] he compromises his whole case by [illegible] that the opinion of the Court in the Rhode Island case "must have been based on some [illegible] state of facts. If the Dorr party had [illegible] a Representative and Senators, and they had [illegible] seats in the halls of Congress, then the [illegible] and House, each acting for itself, must [illegible] determine which set of Senators and which Representative were entitled to [illegible] from the State of Rhode Island, and this is what the Court meant in the use of the language quoted by Senator Williams." Without concurring in this statement [illegible] wholly correct, it may be remarked that it has [illegible] application to the case of the late rebel States, to fully justify the action of Congress [illegible]. Senators and Representatives from the rebel States "claimed seats in Congress," but they were not admitted because Congress did not see fit to recognise the legitimacy of the government which sent them All agree that at the [illegible] of the war there were no governments in the [illegible]. Suppose two or a dozen rival governments had been started in each State. Congress [illegible] have recognized either of them but it [illegible] have also rejected them all. None of them [illegible] have been republican in form, and of their legitimacy Congress would have been the sole judge. [illegible] did exercise its judgment in the case of the eleven States One, (Tennessee) was recognized and its Senators and Representatives admitted, and the other ten still remain in the condition in which they were left by the rebellion

It is hardly worth while to pay much attention to the old compromiser when he says that he does not "see any parallel between the refusal to extend the elective franchise to a few persons in Rhode Island, and the disfranchisement of a million white men to give place to as many negroes" As he has just awaked out of a state of torpidity of several years duration it is charitable to suppose that he has not learned the facts in the case he is talking of, and therefore knows no better than to make such statements as this As the whole number of persons disfranchised in the South would aggregate but a few thousand, and they leading rebels who deserve no consideration, so exaggerated a statement cannot be considered very fortunate for the purposes of argument.

REFUSES TO PAY.—The *Record* says We [illegible] lately that Mr Nixon, Treasurer of Linn, had paid the tax of his county into the State Treasury, but it seems that the county court of Linn refused to pay the half-mill tax ordered by the State to meet the interest on the soldiers' relief bonds, which is not disputed by any other county The county court of Linn seems to consider the act authorizing that levy as not binding The time during which counties can pay their taxes, has not yet expired when it does, if the county is delinquent it will be the duty of the Secretary of State to commence a suit against the County Treasurer for the amount.

### Spirit of the State Press.

The *Sentinel* received this week is largely devoted to wagon road and railroad matters The people of Jackson county are engaged in what seems to be an interminable quarrel over the subject and are expending the greater part of their energies in the contention. The *Reveille* as well as the *Sentinel* is deep in the controversy It is a local quarrel, and the matter published in relation to it is of little interest to outsiders

The *State Journal* combats the idea that the Humboldt Branch Railroad scheme was got up to divert the land grant from the Oregon and California Railroad

The Roseburg *Ensign*, in an article urging Union men to rally to their standard says

> Though peace and its consequent prosperity again bless our land, we cannot forget that this honorable peace was purchased by the Union party at a cost which all the gold of Ophir or all the base treasures of the world could not repay There were heart treasures given for this sacred cause—the perpetuity of the Union—which it were madness to compare with the richest wealth of the mineral kingdom And it is the result of all this sacrifice which our political opponents sought to avert and would now reverse Shall we stand idly by, and, heedless of the right we were once ready to die for see the very men foisted into power who cried most lustily for the adversary when his rebellious red right hand was at our nation s throat?

A late number of the *Record* contains the following practical remarks

> According to the Oregon *Herald*, nearly all the Generals who have distinguished themselves in the war, and have been dme friends of radical measures, when brought into contact with Southern politicians since the war, are renegades to Democrats Sickles, Grant, Sheridan, Schofield, Logan and a multitude of great warriors, whose fame is a nation s pride, have sold their principles it seems to become invested with "kingly powers," and only for such inducements would be earnest supporters of the present Democracy The assertion is not worth combatting, but we cannot help pointing out the moral that adorns the tale. If the *Herald* has not proved anything, it seems very plainly to have confessed that Democrats cannot resist the temptation to sell out, and the fair inference is that the few remaining faithful have never been able to command their price "Hell hath no fury like a woman scorned," except it be a Democratic politician who cannot sell out to good advantage We will never complain of their soured tempers after this

The *Unionist* has an article giving the "natural history and mental analysis of Beriah Brown" We cannot devote much space to extracts on so small a subject, but will give a few sentences from the anthropological treatise

> It is observed that in alluding to his Union cotemporaries Beriah Brown, of the *Herald*, is always unmanerly and insulting, with intention of making his ignorant readers think that he is a very great and awful man! Having been dabbling at the editorial profession twenty or thirty years, he is still nobody at all, and so far as we know, has never written an article that survived twenty four hours, and did not expire at the next sun down, like a disembowelled snake. His head contains little else than the husks and draff of obsolete political text books, inevitable "Resolutions of '98," and the blackguard epithets which are the common stock of Democratic newspapers His paper has become wholly contemptible, and no persons except the more ignorant class of Democrats, place any reliance on its statements

The delineation, as a whole, is rougher than we would have made it, but nobody can say it is unjust We have often shown up Beriah as the ignoramus and humbug which he is asserted to be by the writer of the above extract

A copy of the *Columbia Press* has reached us this week,—the first for a long time During the interval we sadly missed the Confederate doctrines which are obtained from that paper in a less diluted state than from any other in Oregon But the copy before us makes partial amends for the long deprivation. The following is from its leading article

> Why say that we had the fullest confidence in the patriotism and integrity of the Federal army, when we know that the drafted, bounted soldier, or cotton stealing, house-burning, nigger worshipping officer possesses few or no sentiments bordering on that sacred passion We have a natural respect for him who takes his life in his hand and goes forth into battle, but to say they are patriots and that the nation owes the soldier a debt of gratitude for making *it what it is*, when we don't believe any such a thing, is not honest, and in the language of the down Easter, "is not very cute"

This is very good Democratic doctrine, and the *Press* is far more honest in declaring it than any of its party contemporaries in Oregon. We make another extract

> We declare it openly and boldly that if we understand the object of the Democratic party, it is to wipe out all the Rump amendments—to restore the equality and sovereignty of the States—to blot out the bastard State of West Virginia, and re-establish the Union and Constitution as our fathers made it, and welcome any and every man to official position in the National Government whom the people of the several States, under their State Constitution, shall select. Those that like us can come with us, those who don't, stay out

Undoubtedly, it is the object of the Democratic party "to wipe out all amendments," restore slavery and bring rebel Senators and Representatives into Congress Union men know this fact, and therefore will prevent the consummation which is the declared "object of the Democratic party"

We feel that we should be doing our readers an injury to withhold from them even for a single week the usual choice extracts from the Lafayette *Courier*. We therefore quote from that paper

> When one writes or speaks he is frequently misunderstood from a defect in language, or in its use

This is a profound remark. Let it be illustrated by other remarks from the *Courier*

> For ourself we only ask whether a man can be relied upon to sustain the principles for which we are contending, and the man who would drive from the party any other man, or prescribe him who has not thought precisely as he has upon dead issues, will find himself not the proscriber but the prescribed, if prescription play a part in the matter

Jasper evidently has an idea that somebody is trying to force an emetic down his throat but he stoutly refuses to swallow the "prescription"

Another article commences thus

> In former times, where a constitution was to be formed, the ablest statesmen of the country for whom that instrument was to be made was selected, as it was deemed of the most vital importance that the fundamental law should be wisely framed, and fools were not thought capable of promulging wisdom, etc, etc

We know of no thing comparable to this except the orations of John Edward Nandy to his son in law Plornish, in *Little Dorrit* a specimen of which must be given here "I am heartily of your opinion, Thomas, and which your opinion is the same as mine, and therefore no more words, and not being backwards with that opinion, which giving it as yes, Thomas, yes is the opinion in which yourself and me must be unanimously joined by all, and where there is not difference of opinion there can be none but one opinion, which fully no, Thomas, Thomas, no!"

The *Guard*, of Eugene *City*, has a railroad article from which we extract the following paragraph

> The valley road is of infinitely more importance to the interest of Oregon than any other railroad, at present We have no objection to the prospective road from Salt Lake through Idaho Territory and down Snake river, to the navigable waters of the Columbia, but believe that a railroad ought to be built through that country But we think that a railroad through the Willamette is of paramount importance to the interests of Oregon at the present time First, we want a railroad through the valley to connect us with the ocean, so that we may have an outlet for our produce, and then we will be able to command the interests of Oregon The contemplated branch road from the Pacific railroad starting at some point on the Humboldt, running by Klamath Lake over the Cascade mountains to this place would be of much importance to the country but of less interest to Oregon than the valley road We favor all railroads in whatever direction but above all we favor the most, first and last, the valley road

A washing machine, got up on an entirely new principle, has been invented by E W Dixon, of Forest Grove for which a patent has just been received The machine will soon be brought before the people of Oregon It is called the "Skeleton Washing Machine"

SAN FRANCISCO MARKETS.—The Sacramento *Union* of Saturday Jan 25th has a review of the San Francisco markets, dated the day before from which we clip the following paragraphs

In General Markets there has been considerable activity during the past week The number of arrivals from abroad has been unusually large and the exports have also been heavy Had the weather been favorable the trade would have been brisk There are but few changes in the values of merchandise But the heavy importations at this juncture will probably cause a decline in several articles known to be in excessive supply Candles continue to fall in price. Upwards of 6 000 boxes have come to hand during the past week Grass'—the new brand—are selling at 20c ; Grant s at 23, Rope's at 20c. Coffee is dull and lower Manilla is being offered at 13c ; Rio at 19 ; Coal is more [illegible] Chili is held at $15 ; Pennsylvania at $15@18 Sydney at $13@14 Cumberland $20@22 ; Bellingham Bay $11 Mt Diablo $7@9 per ton Cement is very much cheaper owing to recent large quotations Rosendale is offering at $3 50 Benicia at $3 00 per bbl Codfish is active under speculative demand We quote it at 7@8c Oregon salmon has been sold to some extent for export, at $7 50 ℘ bbl Fruits are lower Several large parcels of layer raisins have been sold at $2 50 ℘ box—a reduction of 50 ℘ cent on prices ruling before Christmas Dried apples and peaches are in little better demand owing to stoppage of supply from Oregon, by the freezing of the Willamette and Columbia rivers Nails were selling below cost and charges Several invoices have recently been taken a $4 75@5 ℘ keg Oils are attracting the attention of speculators Nearly 20 000 cases of coal oil have been purchased during the past three days and prices have advanced 2c ℘ gallon Devoe s is now held at 50c [illegible] Rice is very dull China is offering at 6 [illegible] 2 at 6¾c; Siam at 6½c Patna [illegible] Sandwich Islands at 9c Sugars are unsettled owing to excessive supplies Four cargoes have arrived during the week bringing 4 600 000 lbs, from Manilla, Sandwich Islands Peru and China It is estimated that there are 18,000 000 lbs of raw sugar on hand in the State at present. The current rates are 14½@14⅝c for best crushed and 10@12c for best raws Syrups are dearer selling at 70c ℘ gallon It is thought the refineries will not work to their full extent in the present condition of the sugar market Spirits continue in active demand, with large transactions in pure. It is certain that the new revenue regulations will prevent distillers selling spirits below the price of the duty, as at present, and consequently prices must be raised—hence the present activity in laying in [illegible] while the prices are low.

The Produce Market continues in a very satisfactory condition, though the demand for wheat was less active than during the previous week. The export demand for flour is good The closing of the rivers in Oregon has temporarily cut off supplies from that quarter which has stiffened prices here a shade

The receipts have fallen off slightly, as the following figures will show

Wheat, 64 4.. sks Barley, 3,833 sks Oats, 2,381 sks. Flour, 9,970 sks. Potatoes, 5,426 sks. Hay, 5 866 bales.

The exports during the week embrace 45,596 sks Flour, 182,010 do Wheat

Flour Is decidedly firmer. Good City Extra commands $8 ℘ bbl in quarter sks; Superfine $7 25 Sales during week embrace nearly 30,000 bbls The steamer, which leaves on Saturday, has 3,000 bbls engaged

Wheat Market continues firm. The latest telegrams from Liverpool, 20th inst., quote California White at 16s ℘ cental Several vessels are under charter to load for that destination Sales here include 1,000 sks very dirty and poor at $2 37½; 2,000 do at $2 40; 23,000 do fair at $2 50; 2,500 do good at $2 60; 9,300 do at $2 62½, 43,000 do choice at $2,65 10 000 do at $2 70

Barley—There is much speculation going on with this grain. The published quotations are not to be depended on. Upwards of 50,000 sks have been bought up during the week The supplies coming to hand are very light—scarcely more than sufficient to meet the export demand. It is safe to calculate on an advance. The prices at present [illegible] by speculators range from $1 75@1 87½.

Oats are in good demand at 1 [illegible] owing [illegible] say 75@1 80.

Potatoes Are dearer, quotable at 75c@$1 50 ℘ 100 lbs, according to condition

Hay—Is more abundant selling at $12@21 ℘ ton.

Onions are higher, selling at 7c for good reds.

Bran Is dearer, selling at $25@27 ℘ ton

Wool Is in better favor An important reaction has taken place in the Eastern markets, where heavy lots of California have been taken at advanced prices. During December [illegible] of 1,000,000 lbs, were bought at New York and Boston at prices ranging from 18c to 35c ℘ lb Sales here during the week reach nearly 200,000 lbs, at 9c @13c for burry fall, and 15c@18c for fair to choice Spring clip

SWORD PRESENTATION.—A very handsome compliment was paid Capt. S. C. Mills, of the Washington Guard, last evening at the Company's armory—the presentation of an officer's sword, shoulder straps, etc The sword is a beautiful and finished pattern, with a burnished steel [illegible] upon which is engraved in text letters, "Capt. S C. Mills " and in another place, in script letters, 'Presented by the Officers and Members of the Washington Guard" The presentation was a complete surprise to the Captain as he had no previous intimation of the intention of the Company Mr J A. Thomas, Secretary of the Company, made the presentation, accompanying it with a brief speech, in which he conveyed to the Captain the sentiments of high regard in which the officers and members have always held him The Captain though taken entirely by surprise accepted the gift and replied in fitting terms, assuring the donors that he should preserve this token of their appreciation as a remembrancer of the proudest moment of his life. The occasion was every way a happy one, both for the Captain and the officers and men of his Company That the testimonial was worthily bestowed is sufficiently shown by the fact that at the organization of the Company—six years ago, if we are not mistaken—Capt Mills was elected to the command a position he has continuously held ever since by the voluntary suffrages of his men

THEATRE.—The Olympic Troupe, yesterday morning advertised to open their new theater with a performance this evening have postponed the opening till Monday evening in consequence of some portions of the stage properties being unfinished The Company have converted the room on Washington street formerly occupied as a Union Club room, into a very comfortable and neat theater and they propose to keep it open nightly, with something new each night M G Morgan is the General Manager John Everest Musical Director and E Percy, Stage Manager The performances will be various according to the demands of the public taste the company promising to produce 'new farces, new music, etc and wit and fun without vulgarity " Delavan Sprague Percy and others appear in the list of actors We wish them success

TELEGRAPHIC FACILITIES.—A very marked contrast between the present and the old means of communicating with the Eastern States and Europe, is well shown by a telegraphic feat performed by the line yesterday and the day before. Mr W Wills, agent of the Lucy Phillips Gold and Silver Mining Co , Idaho, despatched a message at 3 o'clock P M of Thursday and received a reply to it at 12 M Friday—a lapse of only 21 hours at this city Had the message been transmitted instantaneously the time of receiving it at London would have been 11 46 Considering that several delays and repetitions of the message each way must have occurred it will be seen that the business must have been transacted very promptly Before the telegraph the same business could not have been transacted in less than 60 or 70 days had all circumstances been favorable

THE NEW BISHOP OF OREGON —The telegraphic dispatch we published yesterday morning, in this paper announced the election at Detroit, of the Rev B H Paddock Episcopal Bishop of Oregon A gentleman of this city who we believe has had acquaintance with the new Bishop contributes the following interesting personal note concerning him

The Rev Benj H Paddock D D the newly elected successor of the late lamented Bishop Scott, in the Episcopate of Oregon and Washington Territory has been for some years past Rector of Christ Church Detroit He is well known as a man of eloquence and learning and as one distinguished for wisdom in council and for ability and vigor in administration as well as for those Christian graces of life and character which alone can fitly adorn the high position to which he is called

The [illegible] failed [illegible] there [illegible] rival [illegible] between the [illegible] at a late hour the meeting was adjourned to Thursday evening next at which time the election will take place

**PRODUCED BY SPECIAL CAUSES**

NOTHING THAT IS NOT WHOLESOME GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day

FROM T. M. GATCH, PRINCIPAL OF THE PORTLAND ACADEMY AND FEMALE SEMINARY

Having lately had an opportunity of becoming somewhat acquainted with the workings of this Institution, I unhesitatingly recommend it to all who wish to obtain a practical business education in the shortest time and with the least expense The idea of going from Oregon to California to attend a Commercial School is [illegible] absurd

It is my opinion that pupils instructed by Messrs LAUDEN and DeFRANCE receive greater attention than those of any other Commercial College on the coast, and this I say without wishing to detract from the usefulness of schools I have visited in San Francisco

## WEEKLY REVIEW.

PORTLAND, FRIDAY, Feb. 7, 1868.

[illegible] is still nothing of interest to note in the local markets, trade, as a general thing, being extremely quiet and confined to the supply of limited demands for mer[illegible] for the most easily accessible points of the Willamette valley. The jobbers, outside of grocery lines, are doing nothing whatever, worthy of remark, except to receive and store produce purchased before the freeze-up, or forwarded to consumers' agents. The supply of such [illegible] is large and is being daily augmented by arrivals per river steamers. The opening up of navigation will find the city warehouses full to overflowing and the resumption of steamer trips, it is expected, will inaugurate lively times so far as breadstuffs, particularly, are [illegible].

[illegible] the last week, a comparatively fair business has been done in staple groceries. The stocks on hand are [illegible] much broken, in consequence of the non-receipt of supplies for more than a month. The largest houses find it difficult to fill orders without going out to purchase portions of assortments. As yet, however, prices remain as heretofore quoted.

[illegible] goods, there is a limited trade, not sufficient, [illegible] to [illegible] the supplies, and we find no scarcity [illegible] staple cotton goods, which are running [illegible] and the prices of which are stiffening.

[illegible] gold was quoted in New York at 141%. Legal [illegible] were quoted in San Francisco at 70½.

## TO THE UNFORTUNATE.

**NEW REMEDIES, NEW REMEDIES**

### Dr. Gibbon's Dispensary,

**616** KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians friends, attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

**Seminal Weakness.**

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

**MARRIED MEN,**

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

**TO THE LADIES.**

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR GIBBON that they read his advertisement in the *Daily Oregonian*

### HIRAM SMITH'S

### Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science and all experience have failed.*

He wishes it to be understood that it will cure *all* diseases of the eye, whether of recent or long standing; but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons, living at and in the neighborhood of Harrisburg, Linn county:

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

E. B. MOORE, of the firm of Moore, Garst & Babor, of Harrisburg, had granulated lids for six years.

NATHANIEL BELL, of Clackamas county, had inflamed eyes—a bad case—for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County; G. R. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the above named persons have given lengthy testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

Prepared by SMITH & RILEY,
Harrisburg, Oregon.

## Medical and Surgical

## INSTITUTE.

*CONSULTATION, IN ALL CASES, FREE!*

*CURES GUARANTEED, OR NO PAY REQUIRED.*

*IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

***The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.***

***There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.***

***It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,***

***SEMINAL WEAKNESS,***

***That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.***

**READ! READ!**

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who [illegible], languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings, loss of muscular power; nervousness; irritability; cold feet or hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society, confusion of the mind; loss of memory; nightly [illegible] colorless; slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for some affection of the Heart, Lungs, Brain, or Digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice! Mark the [illegible] of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of d[illegible]ion.

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, [illegible], and degenerate. This is applicable to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures, when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are [illegible] ured of every confid[illegible]

**PERSONS AFFLICTED WITH VENEREAL.**

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated, show a record unsurpassed by any hospital in the world, and the success that has invariably marked the course of treatment,

**Without Mercury or other Deleterious Drugs,**

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that those poisonous drugs, by entering the blood, ruin the constitution and destroy life.

The D[illegible] effects a cure in recent cases, in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or w[illegible]t. The diet need not be changed. Cures always guaranteed, or no pay required.

**IMPORTANT TO FEMALES.**

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous or designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed—consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and faithful nurses.

TO CORRESPONDENTS.—Persons, either male or female, residing in the interior, are often deterred from consulting the Doctor because they cannot spare the time, nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed.

Consultation Free.
